Subject: Recommendation for Mr. Osagioduwa Edo-Osagie

October 19, 2015

To whom it may concern,

It is my pleasure to recommend Mr. Osagioduwa Edo-Osagie to your company. Osagioduwa started his studies at the University of East Anglia in 2012, and is currently working towards finishing the MSc in Software Engineering in 2016. I met Osagioduwa three years ago when he enrolled at UEA and I became his academic advisor and lecturer on the Software Engineering 1 module. Osagioduwa has consistently obtained excellent grades in his modules and he has mastered complex subjects in computing science, such as the design and realisation of complex software systems and graphics development. In addition he has undertaken individual and group based projects in mobile app development. I would classify Osagioduwa in the top 1% of his year.

Osagioduwa has a pleasant, motivated personality with initiative in undertaking new challenges. He has been a peer assisted learning program mentor at UEA and he has been an active contributor in the creation of the Student Computing Society and a variety of activities and projects this body organises. In addition Osagioduwa is capable and comfortable expressing his thoughts and ideas in English, both in oral and written form.

I am convinced Osagioduwa is a very strong candidate and I have no reservations in recommending him to your company. Should you require any further information do not hesitate to contact me on j.noppen@uea.ac.uk.

Yours faithfully,

Dr. J.A.R. Noppen (Lecturer in Software Engineering)
